

Looking for Artists or Artisans to share Downtown Venue

Are you a professional artist/jeweler/potter/artisan needing space to make or display your work in High River?

I am owner of Evanescence Gallery and looking to sub-divide my current retail space to accommodate two 8'x10' kiosks inside the store. Each will be equipped with slat wall display on three sides, a small work desk and a chair. A chain to indicate whether your space is open for viewing or not will be pulled across an open common corridor that will direct traffic to each outlet.

The spaces might work for a painter who wants to display a substantial amount of work in one location, a jeweler who wants to set up the space as a working studio and retail venue or maybe a potter will choose to line the three walls of their space with pottery.

The cost will be \$500 per artist per month.

Evanescence Gallery will be open and staffed 7 days a week between May 22nd and September 30th. Artists will have control of their own space and sales. Arrangements can be made to process sales through our central device or a Paypal account can be set up.

Just think of it...a mini art gallery of one's own and a creative place to work without having to pay any commission on sales made!

Evanescence has been in business for over 5 years, we have an established customer base, a FaceBook and Twitter presence and newsletter that goes out to over 1000 people. We currently represent over 30 artists and crafts professionals and offer year-round adult art classes.

Perhaps you belong to an art group or society that just requires a weekend venue to launch a show? We can help with that too!
