PAINTINGS BY CHERYL PEDDIE

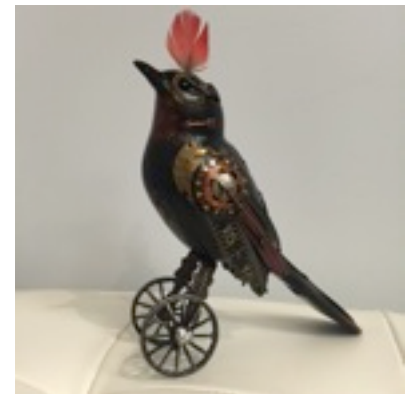

DOWNTOWN IS ALL ABUZZ WITH THE FILMING OF TIN STAR

With all the new sets and store frontage that have been created, it's hard to know at times what is real and what is a prop!

I am excited to have this happening in our small town and appreciate the added exposure the production of Tin Star has provided. Please know that Evanescence Gallery is open for business throughout the time that filming is taking place. There have been very few disruptions and I am grateful for our customer's patience when parking seems more sparse than usual.

The film crew have been generous with both their support and their praise of High River and I am happy to oblige them. Arlene*
